The performance quoted represents past performance and does not guarantee future results.

Current performance may be lower or higher than the performance information shown. The investment return and principal value of an investment in the portfolio will fluctuate, so that your shares, when redeemed, may be worth more or less than their original cost. For performance information current to the most recent month-end, please visit www.voyainvestments.com. Returns for the other share classes vary due to different charges and expenses. Performance assumes reinvestment of distributions and does not account for taxes.

The Voya MidCap Opportunities Fund discussed may be available to you as part of your employer sponsored retirement plan. There may be additional plan level fees resulting in personal performance to vary from stated performance. Please call your benefits office for more information.

Total investment return at net asset value has been calculated assuming a purchase at net asset value at the beginning of the period and a sale at net asset value at the end of the period; and assumes reinvestment of dividends, capital gain distributions and return of capital distributions/allocations, if any, in accordance with the provisions of the dividend reinvestment plan. Net asset value equals total Fund assets net of Fund expenses such as operating costs and management fees. Total investment return at net asset value is not annualized for periods less than one year.

The **Russell Midcap Growth Index** is an unmanaged index that measures the performance of those companies included in the Russell Midcap Index with relatively higher price-to-book ratios and higher forecasted growth values. The Index does not reflect fees, brokerage commissions, taxes or other expenses of investing. Investors cannot directly invest in an index.

Not FDIC Insured | May Lose Value | No Bank Guarantee

An investor should consider the investment objectives, risks, charges and expenses of the Fund(s) carefully before investing. For a free copy of the Fund's prospectus, or summary prospectus, which contains this and other information, visit us at www.voyainvestments.com or call (800) 992-0190. Please read the prospectus carefully before investing.

INVESTMENT MANAGEMENT

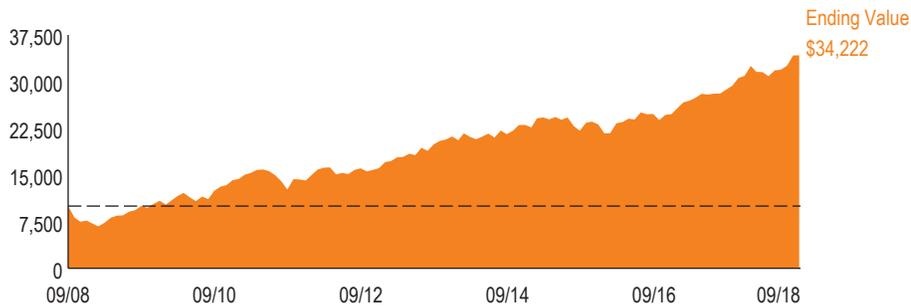

Reliable Partner | Reliable Investing[®]

VOYA[®]

Voya MidCap Opportunities Fund

Growth of \$10,000 Investment

Class I Shares (without Sales Charge) | 10-Year Period Ending 09/30/18

The performance quoted in the "Growth of \$10,000 Investment" chart represents past performance. Performance shown is without sales charges; had sales charges been deducted, performance would have been less. Ending value includes reinvestment of distributions.

Voya Investment Management ("Voya IM")

Voya Investment Management (Voya IM) is a leading active asset management firm. Drawing on over 40 years of experience and an ongoing commitment to reliable investing, Voya IM has the resources and expertise to help long-term investors achieve strong investment results.

Investment Risks:

All investing involves risks of fluctuating prices and the uncertainties of rates of return and yield inherent in investing. **Foreign Investing** does pose special risks including currency fluctuation, economic and political risks not found in investments that are solely domestic. Investing in stocks of **Mid-Sized Companies** may entail greater volatility and less liquidity than larger companies. The Fund may use **Derivatives**, such as options and futures, which can be illiquid, may disproportionately increase losses and have a potentially large impact on Fund performance. Other risks of the Fund include but are not limited to: **Growth Investing Risks; Market Trends Risks; Other Investment Companies Risks; Price Volatility Risks; Inability to Sell Securities Risks; Securities Lending Risks; and Portfolio Turnover Risks.** Investors should consult the Fund's Prospectus and Statement of Additional Information for a more detailed discussion of the Fund's risks.

Glossary of Terms:

Active Share is a measure of the percentage of stock holdings in a manager's portfolio that differ from the benchmark index. **Alpha** Measures the difference between a fund's actual return and its level of risk as measured by beta. An alpha of 0.5 implies the fund performed 0.5% better than the market would predict. The figure is calculated on a three-year basis relative to the benchmark. **Beta** Measures the Fund's volatility relative to the overall market. A beta above 1 is more volatile than the overall market, while a beta below 1 is less volatile. **EPS Growth (3-5 Year Estimate)** is the portion of a company's profit allocated to each outstanding share of common stock EPS growth serves as an indicator of a company's profitability. **Price to book ratio (trailing 12 months)** calculates the ratio of a stock's price to its book value. **Price to Cash Flow** is the ratio of a stock's price to its cash flow per share. The price-to-cash flow ratio is an indicator of a stock's valuation. **P/E (next 12 months)** calculates the price of a stock divided by its earnings per share. **R²** The way in which a percentage of a portfolio's total returns represents the portfolio's beta measure. **ROA** is an indicator of how profitable a company is relative to its total assets. ROA gives an idea as to how efficient management is at using its assets to generate earnings. **Sharpe Ratio** A risk-adjusted measure calculated using standard deviation and excess return to determine reward per unit of risk. The higher the Sharpe Ratio, the better the fund's historical risk-adjusted performance. **Standard Deviation** A measure of the degree to which an individual probability value varies from the distribution mean. The higher the number, the greater the risk. **Weighted Average Market Capitalization** is the value of a corporation as determined by the market price of its issued and outstanding common stock.
