Morningstar Category	Fund Small Blend

¹ Out of 735 peers.

Fund Highlights

Focus on Consistency

We strive to serve as a reliable partner by seeking to deliver consistent performance

Style Purity

We believe in saying what we do and doing what we say — our strategy is squarely in the Small Cap Core style box

All-Weather Management

Unwavering commitment to investment process across a range of market environments

Investment Objective

The Portfolio seeks growth of capital primarily through investment in a diversified portfolio of common stocks of companies with smaller market capitalizations.

You should consider the investment objectives, risks, charges and expenses of the variable product and its underlying fund options; or mutual funds offered through a retirement plan, carefully before investing. The prospectuses/prospectus summaries/information booklets contain this and other information regarding the variable product, its underlying fund options or mutual funds offered through a retirement plan and can be obtained by contacting your local representative or by calling (800) 386-3799. Please read the information carefully before investing.

² The Adviser has contractually agreed to limit expenses of the Portfolio. This expense limitation agreement excludes interest, taxes, investment-related costs, leverage expenses, and extraordinary expenses and may be subject to possible recoupment. Please see the Portfolio's prospectus for more information. The expense limits will continue through at least 2019-05-01. The Portfolio is operating under the contractual expense limits.

³ Russell 2000 Index

⁴ Returns-Based Statistics are shown for Class I shares only based on 10-yr returns. For definitions, see Glossary of Terms.

Total investment return at net asset value has been calculated assuming a purchase at net asset value at the beginning of the period and a sale at net asset value at the end of the period; and assumes reinvestment of dividends, capital gain distribution and return of capital distributions/allocations, if any, in accordance with the provisions of the dividend reinvestment plan. Net asset value equals total Fund assets net of Fund expenses such as operating costs and management fees. Total investment return at net asset value is not annualized for periods less than one year. Performance does not account for taxes. Returns for other share classes vary due to different charges and expenses.

Disclosures

³ The **Russell 2000 Index** is an unmanaged index that measures the performance of securities of smaller U.S. companies. The Index does not reflect fees, brokerage commissions, taxes or other expenses of investing. **Investors cannot directly invest in an index.**

The strategy discussed may be available to you as part of your employer sponsored retirement plan. There may be additional plan level fees resulting in personal performance that varies from stated performance. Please call your benefits office for more information.

All investing involves risks of fluctuating prices and the uncertainties of rates of return and yield inherent in investing. Foreign Investing does pose special risks including currency fluctuation, economic and political risks not found in investments that are solely domestic. Investing in

stocks of Smaller-Sized Companies may entail greater volatility and less liquidity than larger companies. The Fund may use Derivatives, such as options and futures, which can be illiquid, may disproportionately increase losses and have a potentially large impact on Fund performance. Other risks of the Fund include but are not limited to: Market Trends Risks; Other Investment Companies Risks; Price Volatility Risks; and Securities Lending Risks. Investors should consult the Fund's Prospectus and Statement of Additional Information for a more detailed discussion of the Fund's risks.

Glossary of Terms: Alpha Measures the difference between a fund's actual return and its level of risk as measured by beta. An alpha of 0.5 implies the fund performed 0.5% better than the market would predict. The figure is calculated on a three-year basis relative to the benchmark.

Beta Measures the Fund's volatility relative to the overall market. A beta above 1 is more volatile than the overall market, while a beta below 1 is less volatile. **Information Ratio** measures the returns above the returns of a benchmark to the volatility of those returns. **R²** The way in which a percentage of a portfolio's total returns represents the portfolio's beta measure. **Sharpe Ratio** A risk-adjusted measure calculated using standard deviation and excess return to determine reward per unit of risk. The higher the Sharpe Ratio, the better the fund's historical risk-adjusted performance. **Standard Deviation A** measure of the degree to which an individual probability value varies from the distribution mean. The higher the number, the greater the risk.

Fi360 Fiduciary Score[®]

The **Fi360 Fiduciary Score[®]** is a peer percentile ranking of an investment against a set of quantitative due diligence criteria indicative of prudent fiduciary management. Each investment is evaluated against nine individual factors and thresholds, with points allotted if it fails a particular criterion. Investments with 0 points are automatically given an **Fi360 Fiduciary Score[®]** of 0. Every other investment is given a Score of 1–100 representing their percentile ranking. The lower the Score, the better. The **Fi360 Fiduciary Score[®]** should not be used as the sole source of information in an investment decision. Visit Fi360.com/Fi360-Fiduciary-Score for the complete methodology document.
