Fund Highlights

The Voya Target Retirement Funds are a diversified target date fund suite designed to evolve alongside a participant's career based on their retirement date and risk profile. The suite invests in multiple fund managers blending active and passive investments to create diversified allocations for participants. The Funds gradually adjust over time to become more conservative as the target retirement year approaches. The Voya Target Retirement 2030 Fund is designed for people who plan to begin living their retirement goals in the years 2028 to 2032.

Investment Objective

Until the day prior to its Target Date, the Fund seeks to provide total return consistent with an asset allocation targeted at retirement in approximately 2030. On the Target Date, the Fund's investment objective will be to seek to provide a combination of total return and stability of principal consistent with an asset allocation targeted to retirement.

The performance quoted represents past performance and does not guarantee future results.

¹ Out of 217 peers.

² Returns-Based Characteristics are shown for Class I shares only based on 5-yr returns. For definitions, see Glossary of Terms.

Total investment return at net asset value has been calculated assuming a purchase at net asset value at the beginning of the period and a sale at net asset value at the end of the period; and assumes reinvestment of dividends, capital gain distribution and return of capital distributions/allocations, if any, in accordance with the provisions of the dividend reinvestment plan. Net asset value equals total Fund assets net of Fund expenses such as operating costs and management fees. Total investment return at net asset value is not annualized for periods less than one year. Performance does not account for taxes. Returns for other share classes vary due to different charges and expenses.

³ The Adviser has contractually agreed to limit expenses of the Fund. This expense limitation agreement excludes interest, taxes, investment-related costs, leverage expenses, and extraordinary expenses and may be subject to possible recoupment. Please see the Fund's prospectus for more information. The expense limits will continue through at least 2019-10-01. The Fund is operating under the contractual expense limits. The Fund's Acquired (Underlying) Funds Fees and Expenses are based on a weighted average of the fees and expenses of the Underlying Funds in which it invests. The amount of fees and expenses of the Underlying Funds borne by the Fund will vary based on the Fund's allocation of assets to, and annualized net expenses of, the particular Underlying Funds during the Fund's fiscal year.

⁴ Class R6 Inception 12/21/2015. Historical performance shown for Class R6 shares reflects the historical performance of Class I shares for those periods prior to the inception date of Class R6 (represented by italicized text). Historical performance of Class R6 shares likely would have been different based on difference in share class expense ratios.

⁵ Class A Inception 12/21/2015. Historical performance shown for Class A shares reflects the historical performance of Class I shares adjusted to reflect the higher expenses of Class A for periods prior to the inception date of Class A (represented by italicized text). Historical performance of Class A shares likely would have been different based on difference in share class expense ratios.

⁶ Includes maximum 5.75% sales charge.

Disclosures

⁷ The S&P Target Date® Index Series consists of twelve multi-asset class indices, each corresponding to a particular target retirement date. The benchmark asset allocation and glide path for each index in the series is determined once a year and represents market consensus across the universe of target date fund managers. The Index does not reflect fees, brokerage commissions, taxes or other expenses of investing. **Investors cannot directly invest in an index.**

The S&P Target Date 2030 Index is a product of S&P Dow Jones Indices LLC, a division of S&P Global, or its affiliates ("SPDJ"), and has been licensed for use by Voya. Standard & Poor's® and S&P® are registered trademarks of Standard & Poor's Financial Services LLC, a division of S&P Global ("S&P"); Dow Jones® is a registered trademark of Dow Jones Trademark Holdings LLC ("Dow Jones"). The strategy discussed may be available to you as part of your employer sponsored retirement plan. There may be additional plan level fees resulting in personal performance that varies from stated performance. Please call your benefits office for more information.

Investment Risks: There is no guarantee that any investment option will achieve its stated objective. Principal value fluctuates and there is no guarantee of value at any time, including the target date.

The "target date" is the approximate date when an investor plans to start withdrawing their money. When their target date is reached, they may have more or less than the original amount invested. For each target-date portfolio, until the day prior to its target date, the portfolio will seek to provide total returns consistent with an asset allocation targeted for an investor who is retiring in approximately each portfolio's designated target year. On the target date, the portfolio will seek to provide a combination of total return and stability of principal.

Stocks are more volatile than bonds, and portfolios with a higher concentration of stocks are more likely to experience greater fluctuations in value than portfolios with a higher concentration in bonds. Foreign stocks and small- and mid-cap stocks may be more volatile than large-cap stocks. Investing in bonds also, entails credit risk and interest rate risk. Generally investors with longer timeframes can consider assuming more risk in their investment portfolio.

As with any portfolio, you could lose money on your investment in a Voya Target Retirement Fund. Although asset allocation seeks to optimize returns given various levels of risk tolerance, you still may lose money and experience volatility. Market and asset class performance and the assumptions used form the asset allocations for the Voya Target Retirement Fund. There is risk that you could achieve better returns in an underlying portfolio or other portfolios representing a single asset class

than in the Voya Target Retirement Fund. Important factors to consider when planning for retirement include your expected expenses, sources of income, and available assets. Before investing in the Voya Target Retirement Fund, weigh your objectives, time horizon, and risk tolerance. The Voya Target Retirement Fund invests in many underlying portfolios which are exposed to the risks of different areas of the market. The higher a portfolio's allocation to stocks, the greater the risk. Diversification cannot assure a profit or protect against loss in a declining market.

Glossary of Terms: **Alpha** measures the difference between a fund's actual return and its level of risk as measured by beta. An alpha of 0.5 implies the fund performed 0.5% better than the market would predict. The figure is calculated on a three-year basis relative to the benchmark. **Beta** measures the Fund's volatility relative to the overall market. A beta above 1 is more volatile than the overall market, while a beta below 1 is less volatile. **Information Ratio** measures the returns above the returns of a benchmark to the volatility of those returns. **R²** the way in which a percentage of a portfolio's total returns represents the portfolio's beta measure. **Sharpe Ratio** a risk-adjusted measure calculated using standard deviation and excess return to determine reward per unit of risk. The higher the Sharpe Ratio, the better the fund's historical risk-adjusted performance. **Standard Deviation** a measure of the degree to which an individual probability value varies from the distribution mean. The higher the number, the greater the risk.

fi360 Fiduciary Score®

The fi360 Fiduciary Score® is a peer percentile ranking of an investment against a set of quantitative due diligence criteria indicative of prudent fiduciary management. Each investment is evaluated against nine individual factors and thresholds, with points allotted if it fails a particular criterion. Investments with 0 points are automatically given an fi360 Fiduciary Score® of 0. Every other investment is given a Score of 1-100 representing their percentile ranking. The lower the Score, the better. The fi360 Fiduciary Score® should not be used as the sole source of information in an investment decision. Visit fi360.com/fi360-Fiduciary-Score for the complete methodology document.

An investor should consider the investment objectives, risks, charges and expenses of the Fund(s) carefully before investing.
