

2023 Estimated Capital Gains Distributions

Mutual funds realize gains and losses from selling securities held in their portfolios throughout the year. Tax laws require that the funds distribute the capital gains and ordinary income to their shareholders before year-end.

The following table shows estimated capital gain distributions as of September 22, 2023 that are scheduled to be paid out in December. These estimated distributions can change prior to the distribution date due to additional portfolio activity, tax adjustments and subscription/redemption activity. The estimates do not include ordinary income distributions the funds may be making.

The following table does not include closed end funds or fund of funds at this time.

Shareholders are strongly advised to consult their own tax advisors with respect to the tax consequences of their investments in the funds.

Voya funds that are estimated to pay year-end capital gain distributions:

Record Date	Ex Date	Payable Date
December 11, 2023	December 12, 2023	December 13, 2023

The Principal Risk Factors for each fund can be reviewed by going to the Fund Profile page and selecting a fund from the menu.

Please Note: All shareholders will receive an annual statement summarizing their capital gains distribution.

Distributions of earnings from non-qualifying dividends, interest income, other types of ordinary income and short-term capital gains will be taxed at the ordinary income tax rate applicable to the taxpayer.
