

2025 Estimated Capital Gains Distributions

Mutual funds realize gains and losses from selling securities held in their portfolios throughout the year. Tax laws require that the funds distribute the capital gains and ordinary income to their shareholders before year-end.

The following table shows estimated capital gain distributions as of October 30, 2025 that are scheduled to be paid out in December. These estimated distributions can change prior to the distribution date due to additional portfolio activity, tax adjustments and subscription/redemption activity. The estimates do not include ordinary income distributions the funds may be making.

Shareholders are strongly advised to consult their own tax advisors with respect to the tax consequences of their investments in the funds.
